HS codes are indicative and are confirmed against product form and destination tariff before shipment. MOQ and loading quantity are quoted against the selected pack format and current supplier availability.

Buyer specification checklist

Botanical & commercial variety Botanical name plus cultivar, trade type or commercial grade is stated in the offer.	Origin Country, state and sourcing belt are declared. Single-origin status is stated only when documented.
Whole / ground form Finger, pod, seed, whole, crushed or ground form is written into the specification.	Moisture & purity Maximum moisture and minimum physical purity are buyer-agreed and tested as required.
Mesh size Powder particle size is agreed before production and stated on the product specification.	Turmeric curcumin Required curcumin percentage is agreed for turmeric; the selected lot is tested when requested.
Chilli ASTA & SHU Required ASTA colour and Scoville Heat Units are agreed for chilli offers.	Volatile oil A minimum volatile-oil value can be specified for applicable spices.
Aflatoxin & pesticide residue Limits follow the buyer's destination-market requirements and the agreed test scope.	Microbiological limits Total plate count, yeast and mould, coliforms, E. coli, Salmonella and other requested limits are agreed before order.
Steam sterilisation Available only when the selected processor confirms capability for the specific product and lot. It is not standard for every product.	Conventional / organic Status is declared per lot. Organic is offered only with valid supplier certification available for buyer review.

Quality, treatment and documentation

Testing	Accredited-laboratory testing can be arranged per lot for the agreed chemical, physical and microbiological parameters.
Treatment	Steam sterilisation is offered only where supplier capability is confirmed. Other permitted treatments are reviewed against the destination market.
Documentation	COA, certificate of origin, phytosanitary, fumigation and other documents are confirmed according to product and destination.
Certifications	Supplier certifications are available on request. Certification scope and validity are checked for the selected supplier and product.
Private label	Available subject to supplier capability, pack format, artwork approval and MOQ.
Quotation	Request a current FOB or CIF quotation. Commodity prices vary with crop, grade, testing, treatment, packing, volume and freight.

To request a COA, sample or quotation, send the product, form, destination country, required quantity, packing preference, target parameters and Incoterm to services@hevoraglobal.com.
